

# Alumni Linked

---

ALUMNI AND JOB SEEKERS  
COMMUNITY

# Description

---

This is a web-based community for university alumni and students. This website is only for UIU students and alumni so that they can know about any job information or events quickly and easily. This website will help job seekers to get advice and information from experts who are already in the industry. Through this website, job seekers can find alumni working in that company.

# Motivation

---

1. Making good communication between Alumni and Student.
2. Share Alumni Information
3. Spread event news for students
4. Creating opportunity for Job seekers
5. Creating a community for job seekers

# Benchmark Analysis

Messaging	Yes	No	No	No	No
Interview Preparation	Yes	No	No	No	Yes
Search Profile By Expertise	No	No	No	No	Yes
Pricing policy	Yes	No	No	No	No

# Strength and weakness of competitors

- ❑ **UIU Alumni website does not support post any Job information but our system does.**

UIU alumni website just show the information about the alumni but it doesn't support any job portal for any job post which can help Job seekers.

- ❑ **UIU alumni website and other local Job portal doesn't have any community but our system have.**

Community is an essential option for job seekers. Job seekers have a lots of queries and sometimes they need advice. Here community/forum can help them.

- ❑ **BD jobs and Jobcase doesn't have any option for searching alumni to communicate with them but our system has.**

Though LinkedIn have this features but we can not search by expertise of job seekers

but we provide this features where you can search profiles by expertise.

# Strength and weakness of competitors

## ❑ **Bd jobs and Jobcase doesn't support interview preparation but our system dose.**

Most of the job portal doesn't have any option which can help them for interview like which type of question they ask and what should we Ans them. Though LinkedIn provide this features but it's paid.

## ❑ **LinkedIn support instant message but our system doesn't**

There are a lot of messaging services like Messenger What's app etc.

## ❑ **Other system provides new update every month but our system doesn't**

Most of the job portal are commercial and profitable and they have enough man power to maintain their site. On the other hand our website is non-profitable so we may not update our system every month.

# Features

---

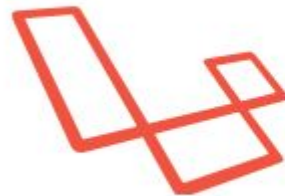

- Alumni Profile : In this section, we will found Alumni Personal Information, Educational Background, Job History.
- Jobs : In this section, Alumni can post about job vacancies of their respective companies.
- Community : By using this community section, if any job seeker has any queries about a company, then any alumni working in that company can solve the queries of that job seeker.
- Program & Events : Alumni can mention any kind of upcoming programs and events(Seminar, Contest) organized by their companies in this section
